MR. HAVERLY'S PROFIT OF \$16,000. "Mr. Haverly has parted with the Comedy Theatre and his Amusement Exchange," said Joseph H. Gulick, "because he will have to spend a great deal of his time during the spring in the West. His profit on the theatre speculation was \$16,000. Haverly's name will be taken down from the Broadway house, and the place will be called either the couldy Theatre or the New-York Comedy Theatre. The Amusement Exchange will be a headquarters for managers and an agency for actors and actresses on a large scale, suggested here a number of years age by Gardner, but never carried out. I shall be general manager for Gale and Spader, who have purchased Mr. Haverly's interests."

"Did you see this!" asked Edgar Strakesch, now managing the Grau Cempany playing at Haverly's Comedy Theatre. The matter referred to was an envelope addressed to "Madame Favart," at the theatre, and tenclosed a card proclaiming the merits of some Russian baths, and a note to the effect that skilled attendants were always on hand.

INVESTIGATING MR. THOMPSON.

THE TWO LEGISLATIVE COMMITTEES TO BEGIN WORK TO-DAY.

The Senate and Assembly committees which are to investigate the peculiar transactions of the Public Works Department, will both meet in this city to-day. The Senate Committee meets in the City Hall, and the Assembly Committee in the Metropolitan Hotel. The chairman of the two committees said yesterday that to-day would be spent principally in laying out the work before them and deciding upon the best methods of procedure, and that not much testimony would be taken. The Senate Committee has employed Frederick W. Whitridge as counsel, but it has not yet engaged accountants. The committee held a short consultation in the Morton House last night. In order to save expense, and not to interfere too much with the regular work of the Senate a sub-committee will be appointed to conduct the investigation in this city. An effort has been made to secure joint sessions of the Senate sub-committee and the Assembly special committee in conducting the investigation into the Public Works Department. Senator Gibbs said last night that his committee would do everything possible to secure a joint session, and thus save the trouble and the expense of separate investigations; but so far Chairman Roosevelt had declined to meet with the Senate sub-committee. Mr. Gibbs said another effort would be made to carry out such an arrangement. made to carry out such an arrangement.

"An instance of the conflict that may result from separate investigations," said Mr. Gibbs, "has already come up. We have subpenaed Mr. Thompson to appear before the Senate Committee at 10:30 a.m. to-morrow, and he has been requested by letter to appear before the Assembly Committee at 10 a.m. Of course he will have to appear before the Senate Committee in answer to the subpona, but had he been subpenaed to appear before the other committee a seeming conflict would have resulted at once. I am very anxious to prevent any such clashing in the future, and hope to come to some arrangement for joint sessions."

Mr. Roosevelt said that his committee would have to decide on matters of that kind. The As-

ing in the future, and hope to come to some arrangement for joint sessions."

Mr. Roosevelt said that his committee would have to decide on matters of that kind. The Assembly Committee has not yet employed counsel.

Comtaissioner Thompson said yesterday that on Thursday he received a cetter from Mr. Roosevelt, chairman of the Assembly Committee, informing him that it would meet at the Metropolitan Hotel to-day at 10 .am., and asking him to be present. Yesterday Mr. Thompson received a subpenna from the Sergeant-at-Arms of the Senate directing him to be present before Senator Gibbs's committee, in the City Hall, at 10:30 a. m. to-day. Not wishing to seem discourteous te either committee, and as he could not be present in two places at once, Mr. Thompson sent the following letter to Mr. Roosevelt:

I am subpænsed to appear before the Senate Commit I am subperned to appear before the Senate Commit-tee on Cities at the City Hall on Saturday, 19th inst., at 10:30 o'clock. Having been previously notified to appear before your special committee from the Assembly at the Metropolitan Hotel at 10 o'clock on the same morning, and wishing to pay the utmost respect to both commit-tees, will you kindly advise me by telegraph how long you will desire me to be before your committee on Saturday morning, in order that I may communicate with Senator Cibbs 1

Late in the afternoon Mr. Thompson received a telegram from Mr. Roosevelt stating that he would probably need two hours' of the Commissioner's time. It is probable that Mr. Thompson will appear personally before the Assembly Committee and be represented by counsel before the Senate Committee during the morning session.

REPUBLICAN PRIMARIES.

THE FIRST HELD UNDER THE NEW PLAN.

CHOOSING DELEGATES TO THE COUNTY AND DIS-TRUT COMMITTEES.

The interest fett in the Republican primaries held yesterday in all the Assembly Districts to elect delegates to the County Committee and members of the various District Committees brought out a large vote. It was the first elec-tion held under the new plan of organization prepared by the Committee of Eighteen. There were contests in the IXth, XIIth, XIVth, XVth, XVIth, XVIIIth, XXth, XXIst and XXIIId Districts. Some of the contests were close. In several of the districts the factions which have heretofore struggled for supremacy appointed conference committees, and the delegates to the County Committee and members of the District Committees were made up from each faction. In this way both sides were represented, and the result is a harmonious district organization. In these districts the vote was lighter than would otherwise have been the case. This was notably the case in the XIIIth, one of the strongest Republican districts in the city. The registration was 1,415, and the vote cast was 368. The general feeling among Republicans was satisfaction at the result. No voter who could establish his claim to be considered a Republican was debarred from casting his ballot. That the voters exercised their privilege of scratching the candidates whom they did not like was shown in nearly every district.

The total vote cast was greater than at any previous Republican primary held in this city. There have been many changes in the make-up of the delegations to the County Committee and also in the District Committees; but most of the old leaders will be found in the lists of those elected, with an infusion of new blood that cannot fail to be beneficial to the well-being and usefulness of the organization in the approaching Presidential campaign.

A light vote had been east during the day, but in the evening everybody that was interested seemed to be there. Captain Copeland had a dozen men in the hall, on the staircase and in the street around the entrance. There were two tickets in the field known as the Jacobus and the Seaman tickets. The party led by ex-Alderman Jacobas, who has for sometime controlled the district, outnumbered their opponents more than two to one, and though the feeling was strong between the factions in the old Republican stronghold, everything passed off without disorder. There were 1,206 votes cast, of 800 were for the ticket given below 374 for the opposition ticket, and 32 scattering. The folin the opposition leket, and 32 scattering. TWELFTH DISTRICT. The excitement over the election in the XIIth District ran high. There were two parties, one headed by Alderman George Hilliard, and the other by Victor Helmberger. Each put forth all its energies. The struggle began at the re-enrolment. The result last night was that the ticke headed by Mr. Hilliard was elected by a Vote of headed by Mr. Hillard votes for the opposition.

"When we began the re-enrolment," said Mr. Hilliard, last night, "we resolved that this district should not be run by a few mere politicians; we determined to bring in the young Republicans and the business men of this district to swell the organization. We got the business men interested and we worked night and day. The result was that msn who had never taken part in the primaries, and who had belonged to no organization, joined us. There were many young men among them. When the ticket was made out, care was taken that it should not be composed of politicians, but of business men. There are only two office holders among the County Committee delegates. We have had opposition of every kind, but we have scored a great victory."

Victor Heimberger denounced his opponent in strong terms. "This is not your work," he said last evening, turning to some of the supporters of the Hilliard ticket; "it is the work of a far smarter man than any of you, and that man is John J. O'Brien. He has managed the whole business and has kept 150 of our men from voting. You fellows did not have brains enough to bring about this

The polls had not yet been closed, yet Mr. Helmberger was convinced that he had been beaten. "You will hear from me yet," he said, "I shall contest this." One of Mr. Helmberger's friends, after the polls were closed, demanded the privilege of watching the opening and counting of the ballots. This was readily granted, and he stood close by the elbows of two of the inspectors during the proceeding. There were some fifteen polloemen on hand, for a disturbance was feared. The election was perfectly quiet, however, Mr. Hillhard's friends remain until the ballots were counted and then gave cheers on the announcement of the vote. THIRTEENTH DISTRICT.

The absence of any opposition, largely reduced the vote that would otherwise have been cast in the XIIIth Distriet. Owing to the excellent arrangements, there was no great delay in voting at any time. The factions that waged so lively a contest a little more than a year ago have come together and both are represented on the ticket. There was no challenging. All the prominent Republicans in the district are represented on the County or District committees. The voters registered numbered 1,415. The votes east were only 368. In the XVth District there were threatenings of discord from the time the doors were opened early in the morning. E. A. Pettegrew, president of the former Republican Association, and M. G. Hollister, the leader of the Independents, joined forces and on Wednesday decided upon a ticket which they thought would harmonize all In consequence he introduced a second ticket in the elec-tion yesterday and succeeded in polling about 145 votes out of the 499 that were cast. The voting was continued until 10:30, as the association rooms were filled with voters at the time of closing the doors. While the votes were being counted Dr. Goodman was ap-proached by James Burke, one of the regular Republicans, and was repouched for his opposition. Dr. Goodman took umbrage at this and promptly knocked Mr. Burke down. The police prevented tee continuance of the fight by hustling Mr. Burke out of the room. There were nearly wenty challenges of votes made on of the fight by hustling Mr. Burke out of the room.

The XVIth District primary, at No. 427 Second-ave. was lively, though not marked by any disturbance of the peace. A police-sergeant and several officers kept order and guided the voters into a line that kept constantly passing to the ballot-boxes. The opposition was largely a personal one to Captain Michael has been the leader and who president of the district association for many years. John D. Eagan, James Cantwell, William J. Irwin and Robert A. Campbell, all of whom had their names stricken from the re-enrolment lists by order of the Committee of Eigheeen upon the application of the district officers. Among the forty names on this opposition ticket twenty-two were not on the books. The regular ticket was made up from all the various elements of the party and it was overwhelmingly elected Out of an enrolment of 763 names, 398 votes were cast. It took a quarter of an hour to reach the ballot-box from the street. One man said he had come 600 miles to vote. There were two tickets. The "old machine ticket," as it dubbed by its opponents, headed by William Dowd, had upon it for the County Committee thirteen names and for the District Committee thirty-five names of those who belonged to the old association. The "Castle Garden" ticket, so called by its opponents, headed by Professor Van Amringe, had for the County Committee five and for the District Committee twenty-two members of the old organization upon it. Elihu Root said that the old ticket was made out to represent every element in the district and produce a unity of feeling among

the district and produce a unity of feeling among all. The contest, in his opinion, was merely one between what wao wrongly conceived to be the old machine and an element which asptred to become the new machine. L. C. Whiton said that he with several others had at a late hour determined to run an opposition ticket. They had prepared their ticket Wednescay night and yesterday issued a circular to counteract the effect of the one printed in yesterday's TRIBUNE. The voting was quiet and when the votes were cauvassed the Dowd tickets numbered 321 and the Van Amringe tickets 235. The following delegates to the County Committee were chosen: William Dowd, Birdseye Blakeman, John H. Hall, Edward Mitchell, Salem H. Wales, Chauncey M. There were three tickets in the field-the "ma chine" or Raymond ticket, the Young Men's Republican Club or Crane ticket, and the Committee of Ten or Anti-Office-Holder ticket. The latter is a split from the Young

Men's Republican Club, which for so long a time has been fighting the machine. When the inspectors of election went to Daly's Hall, where the election was advertised to be held, it was was held in Third-ave, near One-hundred-and-thirtleth-at There was a large crowd at the polls all the time and active work was done for all three tickets. There was a good deal of scratching all around and it was impossible to say with any certainty which ticket had been successful. The split in the Young Men's Republican Club over LEGISLATURE.

crease of devotional feeling. The Olympian Zeus in especial must have stirred the deepest feelings of the beholder. Phidias was the first to connect majesty with beauty. The lecturer, after regretting the irreparable los. of these statues, turned to the remains of the pediments, frieze, and metopos of the Parthenon, which, however, he said, were but a faint indication of the plastic art of Phidias. He spoke of the grandeur joined with simplicity of these wo,ks and stated his belief that the various grades of art represented in the metopes were due not to a diversity of sculptors, as is generally supposed, but to the gradual training in his art of the single sculptor who wrought them.

THE PRESIDENCY OF UNION COLLEGE. A RUMOR THAT PRESIDENT POTTER IS TO RESIGN-

CANDIDATES FOR THE SUCCESSION. SCHENECTADY, N.Y., Jan. 18 .- Very little has been heard of the Union College controversy for several months. It will now be recalled to the public mind by the announcement that President Potter has been offered the Presidency of Hobart Free College at Geneva and is likely to accept. Hobart was founded under the name of Geneva College in 1824. It is under the control largely of the Episcopalians, is well endowed, and possesses good buildings. Dr. Potter's decision has not yet been made public, but it is believed he will go. It is known that many of his best friends have for some time been in favor of his severing his connection with Union College, arguing that, in view of the unfortunate differences that exist, his usefulness in that position has practically come to an end. No understanding has yet been reached in the Board of Trustees. The two factions have the numerica strength that they displayed last Commencement, and there is every prospect that the election in June of an Alumni trustee will be the most exciting contest of the series. Thomas H. Fearey, one of the most uncompromising of the auti-Potter men, is now in Germany and is not expected home this year. The other trustees, with not expected home this year. The other trustees, with
the possible exception of Governor Hoffman, will
doubtless be on hand. It is too early in the year to speculate in regard to candidates, but it is whispered about
the college that in case President Potter holds on, his opponents will support Professor Webster for trustee. Professor Webster, it will be remembered, was the leader of
the revolt against the President among the Professors at
Union, and was removed by the trustees the day before
last Commencement.

Professor Webster has also been mentioned for President in the event of Dr. Potter's withdrawal. But one of

Professor Webster has also been mentioned for Freedent in the event of Dr. Potter's withdrawal. But one of his intimate friends is authority for the statement that he would not accept the position. Other names mentioned in connection with the succession are Professor Thomas R. Lounsbery, of Yale College; the Rev. Dr. Charles Dw. Bridgiman, Pastor of the Madison Avenue Baptist Church, New-York; and Dr. David Murray, of Albany, Secretary of the Board of Regents of the University.

POWDER MILLS BLOW UP.

FIVE BUILDINGS DESTROYED-ONE MAN KILLED,

AND ANOTHER INJURED. SCRANTON, Penn., Jan. 18-Fire was discovered in the boiler room of the Consumers' Powder Company's mills, about nine miles from this city, late last night. No provision had been made for extinguishing fire there, and the efforts of the watchman and superintendent to quench the flames with palls of water were futile. In a short time the building, which included the grist mill, was in flames. Half an hour afterward the sparks set fire to the barrel house, in which there was con siderable powder in process of preparation. A terrific explosion occurred, and the villages for miles around was ond explosion, that of the press mill, followed;

A second and L. H. Emby a heavy A second explosion, that of the press mill, followed; and L. H. Emery, at a distance of half a mile, was struck by a heavy piece of casting in the neck and was killed. The blow nearly severed his head from his body. Another piece of machinery struck and broke one of the legs of a bookkeeper named Williams who had sought safety in the dense woods that energie the works.

Following the descruction of this mill the corning mill exploded and demolished the canister house. About 2,000 kegs of powder were destroyed. The works were erected has sammer, and all the machinery was new and of the best pattern. The loss is \$50,000, with no insurance. The fire was of incendiary origin. 8 M. Nash, proprietor of the Wyoming House, is the president of the company.

AN EXCITING ELECTION FOR SENATOR.

FIVE BALLOTS IN THE MARYLAND LEGISLATURE-JUDGE E. K. WILSON CHOSEN.

Annapolis, Jan. 18.-Five ballots were had in the Legislature to-day for United States Senator to suc cced James B. Groome. The first vote resulted: Robinson, 24; Thomas, 16; Groome, 19; Wilson, 15; Dixon 14: Keating, 8: Creswell, 7; and 8 votes scattering. The changes were slight in the next three votes, Robinson failing to 22, Dixon to 10, and Wilson gaining to 25. The fifth stood: Robinson, 29; Wilson, 24; Thomas, 11 Groome, 10; Dixon, 13; Creswell, 9; Clark, 5; Keating, At the conclusion of this ballot, and before it was an

nounced, there was great excitement. Thereupon the long expected break of the Republicans to Judge Robinson began. Senator Moore (Rep.) started. The excite son began. Senator Moore (Rep.) started. The excite-ment rose to fever heat when Mr. Randal (Rep.) followed. The Democrats then began to change to Thomas and Wilson, and these votes were received with applicates. Mr. Gadd, from Robinson's own county, and Mr. Legg, a firm supporter of that candidate, led the movement, both voting for Wilson. Each was greeted with obsers, and the convention was soon in an uproar. The president of the convention hammered with his gavel and stopped proceedings till order was restored. Scores of Democrats changed their votes to Jurige Wilson, and he was elected. The vote stood, after the changes: Wilson, 68; Robinson,
